TASCLabs is a state-of-the-art drug testing laboratory serving agencies and corporations across Illinois. With collection sites in 20 locations statewide, TASCLabs performs over 250,000 tests annually for drug courts, welfare-to-work programs, probation offices, and a host of public agencies and private corporations.\*

TASCLabs uses the most reliable drug testing instrumentation on the market, and specializes in working with organizations and systems that deal with a large percentage of individuals with potential substance use disorders.

### TASCLabs offers:

**Fast, convenient results** – TASCLabs provides timely and accurate results based on proper chain of custody procedures. Toxicology results and customized reports can be accessed through a secure Web-based system quickly and conveniently.

**Personalized service** – Specialized consultation and training are part of each contract. Test panels are individually designed for customers' specific reporting requirements, and pricing structures are set accordingly.

**Customized test profiles** – Report profiles are individually designed to meet customers' needs. Additional tests can be customized as needed to fit a program's needs and budget. Whether utilized as tools to help motivate client behavior change, or simply as a method of identification and surveillance of drug usage, reports provide objective documentation and verification of clinical impressions.

**Analysis and implications of test results** – With more than 25 years' experience providing substance use intervention and recovery management services, TASC understands the reporting needs of social service providers and systems working towards client improvement. After testing is completed, TASC laboratory professionals are readily available to answer questions and provide guidance in discerning the clinical implications of test results.

TASCLabs personnel are fully trained in the latest drug testing technologies and equipment, and comply with all of the professional qualifications required by the U.S. Department of Health and Human Services and the Illinois Department of Public Health. TASCLabs is fully licensed and certified under Illinois and the Federal Clinical Laboratory Improvement Act guidelines.\*\*

\* excludes transportation environments as mandated by the Department of Transportation

\*\* In addition to TASC's internal quality control system, TASCLabs participates in the College of American Pathology (CAP) Survey Sample Testing program to ensure accurate results.
